Patron

Dr. Arati S. Petkar

Neha Verma Madan

Convenors

Dr. M. S. Ranadive

Head of Department

About COEP

College of Engineering Pune(COEP), one of the oldest engineering colleges in India, was established in the year 1854. It is a premier engineering institution in the country and is consistently ranked highly by various independent surveys on Technical Education in India.

About CED

The Department of Civil Engineering established in 1854 has the distinction of being the oldest department in the institute. It has set up a great tradition of producing distinguished engineers such as Bharat Ratna late Sir. M. Visvesvarayya who through his countless works is synonymous with Civil Engineering. Even after completing its sesquicentennial anniversary, the department has kept updating to well-equipped laboratories and research. The faculty believes in high-quality teaching and is very active in projects, conferences and research publications. The department offers consultancy in various fields of Planning and Civil Engineering to reputed government and private sectors.

About T&CP Section

The Town Planning Section was founded in the year 1966. COEP has this distinction of being first institution in Maharashtra State to start a Masters program in Town and Country Planning. Since its inception, the department has grown into one of the largest and most widely respected postgraduate town and country planning program in the state and country. In 2012, AICTE approved four-year bachelor course in Planning has also started. The course is committed to produce best planners of the nation to take up the challenges of physical and socio-environmental development of global standards. With an aim to be a Centre of Excellence in Environment, Sustainable Development and Urban and Regional Planning, the Town Planning Section has seen many glorifying achievements and will continue the same in future.

Resource Persons

Sessions will be delivered by eminent speakers from IITs, SPA and COEP.

Participants

This course is primarily open to faculty and research scholars from various AICTE approved colleges/ Institutions. Working professionals from Industries/ R&D/ Rural and Urban Local Bodies

Objective of the Program

To get information on Techniques and Methods to conduct Social Audits of various development projects

About Social Audit

Social Audit is an emerging concept that has become popular and relevant in the context of Good Governance. Social audit through its systematic process allows the civil society to identify the gap between the desired and actual impact of a project/ programme/ service implemented. It also allows people to enforce accountability and transparency in government service delivery.
